PROFILE SUMMARY

Mobile Development Specialist with over **8 years of experience** in **Android** applications using **Java and Kotlin**, as well as cross-platform solutions with **Flutter Dart**. Expertise includes project management and client relations, ensuring satisfaction through a strategic approach. Passionate about leveraging innovative technologies to enhance user engagement and improve business efficiencies.

PROJECTS

Lexmark | *Flutter, Android, iOS, IoT, CI/CD*

July 2022 – July 2023

- Led a team of 10 to develop a Wi-Fi configuration solution for Lexmark printers, reducing connection errors by 95%.
- Utilized, edited, and contributed to 3 Flutter libraries to ensure compatibility with recent Android OS versions.
- Conducted on-site workshops with clients in the Philippines to build and maintain Jenkins Build Server and present the initial project timeline.
- Created and updated Flutter code templates to align with clean architecture principles, enhancing code maintainability and scalability.

Atlantic Energy | *Android, Kotlin, IoT*

March 2022 – August 2022

- Led a team of Android developers to integrate IoT devices, including CCTV cameras, plugs, and bulbs, into a mobile application, achieving device connections within 10 seconds.
- Facilitated communication between clients and the Tuya SDK team, ensuring alignment of requirements and swift resolution of technical challenges.
- Developed custom features and ensured robust integration of IoT devices on the Android platform.

Buyaladdin | *Android, Java, Machine Learning, TensorFlowLite*

August 2020 – April 2021

- Developed an Android application enabling users to search for clothing items by pointing their camera at similar-looking items, achieving a 70% success rate in detecting a T-shirt from a 5-meter distance without zoom.
- Enhanced detection speed by 20% through parallel processing using RxJava.
- Integrated on-device machine learning models for live detection, enhancing user experience.

HBB-Mali | *Android, Java, Firebase*

July 2019 – June 2020

- Developed an application for nurses in Mali to collect detailed reports on delivery conditions, aiding in identifying causes of high newborn mortality rates.
- Processed and analyzed collected data to generate insightful analytics, displayed in a dedicated admin application.
- Provided valuable information to healthcare professionals, assisting in developing strategies to reduce newborn mortality rates.

EXPERIENCE

Freelance

December 2023 – Present

Self-Employed

Remote

- Developed and integrated Android applications, enhancing mobile platform capabilities through innovative technology.
- Created an open-source Android project template on GitHub, reducing project startup time by 50%.
- Led Android development projects, delivering prototypes and proofs of concept to validate client innovations.
- Regularly contributing to open source projects on Github by pull requests and issues.

Senior Software Developer/Team Lead

March 2022 – October 2023

Programming.com

Gurgaon, Delhi, India (Remote)

- Led multiple high-profile projects, guiding teams to deliver innovative solutions for major clients.
- Enhanced client relationships through effective communication and precise project estimations, consistently exceeding expectations.
- Improved code quality by developing comprehensive guidelines and sharing productivity-enhancing techniques, including IDE shortcuts and scripting tools.

Co-Founder/Lead Developer

November 2018 – October 2020

iCodeAnalyst

Rajkot, Gujarat

- Co-founded a service-based startup focused on mobile and web application development.
- Led client acquisition efforts and project development, handling Android and Flutter solutions.
- Managed a small team, ensuring project deliveries and technical implementation.
- Worked on various domains, including EdTech, Health, and custom software solutions.

Software Developer

August 2016 – Oct 2017

Infibeam.com

Ahmedabad, Gujarat, India

- Developed Android applications using EDX's open-source platform, enhancing app functionality and user experience.
- Standardized Android architecture patterns and coding practices, creating documentation guidelines to streamline development processes.
- Led the development of educational and logistical apps, including StudyByTech, Entuze, CoCarrier, and Transport On Demand, tailoring solutions to meet specific client needs.

TECHNICAL SKILLS

Frameworks: Android, Flutter, Node.js, Laravel

Languages: Kotlin, Java, Dart, JavaScript, PHP, MySQL, NoSQL

Developer Tools: Android Studio, Visual Studio Code, IntelliJ IDEA, Git, Jenkins, Google Cloud Platform, Photoshop

Libraries: Android Jetpack, Firebase, TensorFlowLite, Edx, RxJava, Coroutines, Maps, IoT, Material UI

EDUCATION

Gujarat Technological University

Gujarat, India

Bachelor of Engineering in Computer Science

2012 – 2016
