Summary

I am an experienced Mobile Development Specialist with a strong background in Android applications using both Java and Kotlin, complemented by proficiency in cross-platform solutions with Flutter Dart. Over 7 years of leading projects from inception to completion have honed my project management skills and my ability to ensure client satisfaction. As a freelancer, I offer comprehensive mobile development services, managing all aspects of client relations and project execution with a strategic and meticulous approach. I am passionate about leveraging cutting-edge technologies to enhance user engagement and improve business efficiencies.

Experience

AI Analyst | Software Developer | Developer Success Manager

micro1

Feb 2024 - Present (4 months)

At micro1, I served in dual capacities, enhancing large language models (LLMs) through rigorous RLHF (Reinforcement Learning from Human Feedback) projects and leading as a Developer Success Manager. My key contributions included:

- AI Analyst: Spearheaded the improvement of LLMs using Python, SQL, Java, and JavaScript, applying advanced programming skills to refine model performance and accuracy in RLHF initiatives.
- Developer Success Manager: Leveraged extensive knowledge of client operations and technical requirements to mentor colleagues, significantly boosting their effectiveness and success in similar roles. Facilitated skill development and problem-solving techniques, ensuring team proficiency and client satisfaction.

These roles enabled me to blend technical expertise with strategic leadership, directly contributing to the enhancement of LLM capabilities and the professional growth of my team.

Freelance Software Developer

Self Employed

Oct 2016 - Present (7 years 8 months)

- Developed and integrated Android services and applications, enhancing mobile platform capabilities through innovative technology.
- Led Android development projects, delivering prototypes and proofs of concept to validate client innovations.
- Managed development timelines, ensuring accurate project estimates and efficient progress reporting.
- Analyzed and improved Android application security, adhering to best practices in coding, testing, and deployment.
- Utilized Agile methodologies to streamline development tasks, customizing Android UI components to client specifications.

- Drove client acquisition on Upwork, coordinating project completion with multi-disciplinary teams to meet diverse system requirements.

Senior Software Developer | Tech Lead
Programming.com
Mar 2022 - Oct 2023 (1 year 8 months)
- Spearheaded multiple key projects, leading teams in high-stakes environments to deliver innovative solutions for major clients.
- Enhanced client relationships through effective communication and precise project estimations, ensuring expectations were met and often exceeded.
- Facilitated successful workshops in the Philippines, overseeing project execution and team collaboration to optimize client outcomes.
- Improved code quality across the board by developing comprehensive guideline documents and sharing productivity-enhancing techniques, including IDE shortcuts and scripting tools.

Software Developer
Infibeam
Aug 2016 - Oct 2017 (1 year 3 months)
- Developed Android applications leveraging EDX's open-source platform, enhancing app functionality and user experience.
- Collaborated with developers, testers, and designers in cross-functional teams to design and implement new features.
- Standardized Android architecture patterns and coding practices, creating documentation guidelines to streamline development processes.
- Managed code merges, builds, deployments, and Android configuration setups, ensuring smooth operation and integration.
- Spearheaded the development of educational and logistical apps including StudyByTech, an EdTech platform for CA, CS, and CMA exam preparation, as well as Entuze, CoCarrier, and Transport On Demand, tailoring solutions to meet specific client needs.
- Drove multiple project incubations, successfully delivering tailored Android solutions that improved client service delivery and operational efficiency.

Education

Darshan University
Bachelor of Engineering - BE, Computer Engineering
2012 - 2016

PV Modi School
12th, Science
Jul 2011 - Apr 2012

PV Modi School
10th, General
Jul 2009 - Apr 2010

Skills

Android • Flutter • Machine Learning • Internet of Things (IoT) • Client Relations • Team Management • Requirements Analysis • Firebase • Node.js • Laravel
